Grip | Kickstand | Complete Support

Compatible with any Smart device
(iPhone, iPod, iPad, Galaxy Series etc)

Become one with your phone

AAUXX[®] Design for Better Life

Nowadays, people spend nearly every waking hour with their smartphone. Our mobile phones connect us to others, so we have become connected to our phones. We designed iRing to accommodate this personal relationship.

iRing's ergonomic grip design makes you feel like your smartphone is an extension of your body. It provides you with a sense of security when you're actively engaging with your phone. In fact, you may never drop your phone again.

Make a stand, anywhere

0°~180°

AAUXX®
Design for Better Life

When you're not holding your smartphone, it's probably still within your reach: on your desk, next to your monitor, or on your bedside table when you sleep. In any case, you want your screen to be visible and easily accessible.

iRing is your portable, kickstand solution. We designed a robust friction hinge to support your phone in both landscape and portrait views. And unlike our competitors, iRing won't buckle under the weight of your device. From your hand to your table, iRing stands for you.

Compact industrial design

With a thickness of only 6.2 mm and weight of 9.8g(0.34oz), iRing's sleek design seamlessly compliments your phone's profile and slips effortlessly into your pocket.

Proprietary adhesive technology

iRing can be removed at any time without leaving any residue. Powered by STIXX[®], iRing's pressure sensitive adhesive can be washed in water when dirty and reapplied again and again.

Rinse / Let dry / Reapply

Design Integrity

We know how important your smartphone is to you so we built a product that will endure the everyday handling of your current phone, and even its successor.

Your iRing rotates 360° and swivels 180° to accommodate your unique grip and optimal viewing angle. Unlike similar products, iRing's superior functionality won't diminish after repeated usage. We use quality materials and high-precision CNC machining with a tolerance of 0.01mm. iRing is built to last.

For your car, too!

iRing Hook

Avoid unattractive and cumbersome car mounts with iRing Hook. Small and unobtrusive, iRing Hook couples with your iRing to provide an in-car solution for your travelling needs. On your dashboard, rearview mirror, or center panel, iRing Hook allows you to place your smart phone in the location that's most convenient for you.

Promote your brand!

iRing is the perfect promotional item for your company or school. Unique and relevant, recipients will gladly sport your brand name in exchange for the positive impact iRing will have on their lives.
